BRIEF SUMMARY

I'm a proficient web developer with expertise in HTML, CSS, JavaScript, and MongoDB. With a strong foundation in these technologies, I always focus on creating and styling dynamic, responsive web applications. Skilled in modern JavaScript frameworks like React, Angular and well-versed in ES6+ features, they bring interactivity and advanced functionality to web projects. Their experience with MongoDB includes designing and managing databases, performing CRUD operations, and integrating with web applications using tools like Mongoose. I consistently follow best practices for web development, ensuring accessibility, performance, and a seamless user experience, and is always eager to learn and implement new technologies to solve real-world challenges. Experienced well-developed interpersonal skills in achieving good relations and effective teamwork. Proven ability to manage time wisely, prioritizing tasks, and meeting deadlines for various academic projects and extra-curricular involvements. Fresh out of university with renewed enthusiasm and eagerness to apply a new perspective in a dynamic team for a non-technical role. Dedicated to lifelong learning and professional development, with an enthusiasm for delivering outstanding service and support.
